

Final Corpus for “Instruments” section

1. Anyanwu, R., Le Grange, L., & Beets, P. (2015). Climate change science: The literacy of geography teachers in the Western Cape Province, South Africa. *South African Journal of Education, 35*, 1-9. <https://doi.org/10.15700/saje.v35n3a1160>
2. Arslan, H.O., Cigdemoglu, C., & Moseley, C. (2012). A three-tier diagnostic test to assess pre-service teachers' misconceptions about global warming, greenhouse effect, ozone layer depletion, and acid rain. *International Journal of Science Education, 34*, 1667-1686. <https://doi.org/10.1080/09500693.2012.680618>
3. Aznar-Díaz, I., Hinojo-Lucena, F.-J., Cáceres-Reche, M.-P., Trujillo-Torres, J.-M., & Romero-Rodríguez, J.-M. (2019). Environmental attitudes in trainee teachers in primary education: The future of biodiversity preservation and environmental pollution. *International Journal of Environmental Research and Public Health, 16*, 362. <https://doi.org/10.3390/ijerph16030362>
4. Boon, H. (2016). Pre-service teachers and climate change: A stalemate? *Australian Journal of Teacher Education, 41*(4). <https://doi.org/10.14221/ajte.2016v41n4.3>
5. Breslyn, W., McGinnis, J.R., McDonald, R.C., & Hestness, E. (2016). Developing a learning progression for sea level rise, a major impact of climate change. *Journal of Research in Science Teaching, 53*, 1471-1499. <https://doi.org/10.1002/tea.21333>
6. Ceyhan, G.D., & Mugaloglu, E.Z. (2020). The role of cognitive, behavioral and personal variables of pre-service teachers' plausibility perceptions about global climate change. *Research in Science & Technological Education, 38*, 131-145. <https://doi.org/10.1080/02635143.2019.1597695>
7. Dal, B., Alper, U., Özdem-Yilmaz, Y., Öztürk, N., & Sönmez, D. (2015). A model for pre-service teachers' climate change awareness and willingness to act for pro-climate change friendly behavior: Adaptation of awareness to climate change questionnaire. *International Research in Geographical and Environmental Education, 24*, 184-200. <https://doi.org/10.1080/10382046.2015.1034456>
8. Dijkstra, E.M., & Goedhart, M.J. (2012). Development and validation of the Attitudes towards Climate Change and Science Instrument [ACSI]: Measuring students' science attitudes, pro-environmental behaviour, climate change attitudes and knowledge. *Environmental Education Research, 18*, 733-749. <https://doi.org/10.1080/13504622.2012.662213>
9. Erdogan, M., & Ok, A. (2011). An assessment of Turkish young pupils' environmental literacy: A nationwide survey. *International Journal of Science Education, 33*, 2375-2406. <https://doi.org/10.1080/09500693.2010.550653>
10. Hadjichambis, A. Ch., & Paraskeva-Hadjichambi, D. (2020). Environmental Citizenship Questionnaire (ECQ): The development and validation of an evaluation instrument for secondary school students. *Sustainability, 12*, 821. doi.org/10.3390/su12030821
11. Jarrett, L., Ferry, B., & Takacs, G. (2012). Development and validation of a concept inventory for introductory-level climate change science. *International Journal of Innovation in Science and Mathematics Education, 20*, 25-41. ro.uow.edu.au/eispapers/723
12. Jarrett, L., & Takacs, G. (2020). Secondary students' ideas about scientific concepts underlying climate change. *Environmental Education Research, 26*, 400-420. <https://doi.org/10.1080/13504622.2019.1679092>
13. Karpudewan, M. (2019). The relationships between values, belief, personal norms, and climate conserving behaviors of Malaysian primary school students. *Journal of Cleaner Production, 237*. <https://doi.org/10.1016/j.jclepro.2019.117748>
14. Lambert, J.L., Lindgren, J., & Bleicher, R. (2012). Assessing elementary science methods students' understanding about global climate change. *International Journal of Science Education, 34*, 1167-1187. <https://doi.org/10.1080/09500693.2011.633938>
15. Lee, Y.-J., Chu, H.-E., & Martin, S.N. (2018). Examining factors that influence on elementary teachers' perceptions in a graduate level interdisciplinary environmental education program, using ePCK as a framework. *EURASIA Journal of Mathematics, Science and Technology Education, 14*. em1574. <https://doi.org/10.29333/ejmste/92184>

16. Major, L., Namestovski, Z., Horak, R., Bagany, A., & Krekic, V.P. (2017). Teach it to sustain it! Environmental attitudes of Hungarian teacher training students in Serbia. *Journal of Cleaner Production*, *154*, 255-268.
17. Negev, M., Sagy, G., Garb, Y., Salzberg, A., & Tal, A. (2008). Evaluating the environmental literacy of Israeli elementary and high school students. *Journal of Environmental Education*, *39*, 3-20. <https://doi.org/10.3200/JOEE.39.2.3-20>
18. Otsuka, K., Nakamura, K.W., Hama, Y., & Saito, K. (2018). The creation of learning scales for environmental education based on existing conceptions of learning. *Sustainability*, *10*, 4168. <https://doi.org/10.3390/su10114168>
19. Perez-Rodríguez, U., Varela-Losada, M., Alvarez-Lires, F-J., & Vega-Marcote, P. (2017). Attitudes of preservice teachers: Design and validation of an attitude scale toward environmental education. *Journal of Cleaner Production*, *154*, 634-641. <https://doi.org/10.1016/j.jclepro.2017.06.245>
20. Quinn, F., Castéra, J., & Clément, P. (2015). Teachers' conceptions of the environment: Anthropocentrism, non-anthropocentrism, anthropomorphism and the place of nature. *Environmental Education Research*, *22*, 893-917. <https://doi.org/10.1080/13504622.2015.1076767>
21. Richter-Beuschel, L., Grass, I., & Bögeholz, S. (2018). How to measure procedural knowledge for solving biodiversity and climate change challenges. *Education Sciences*, *8*. <https://doi.org/10.3390/educsci8040190>
22. Sa'di, I.T. (2019). Assessing environmental orientations of children at United Nations Relief and Works Agency for Palestine Refugees in the Near East [UNRWA] schools: Investigating psychometric properties of the New Ecological Paradigm Scale. *International Journal of Learning, Teaching and Educational Research*, *18*, 115-127. <https://doi.org/10.26803/ijlter.18.7.8>
23. Sakschewski, M., Eggert, S., Schneider, S., & Bögeholz, S. (2014). Students' socioscientific reasoning and decision-making on energy-related issues: Development of a measurement instrument. *International Journal of Science Education*, *36*, 2291-2313. <https://doi.org/10.1080/09500693.2014.920550>
24. Seo, S., Ryu, J., & Hwang, S. (2020). Building key competencies into an environmental education curriculum using a modified Delphi approach in South Korea. *Environmental Education Research*, *26*, <https://doi.org/10.1080/13504622.2020.1733493>
25. Silva, E., Soares, D.L., Oliveira, H.M., & Vieira, H.D.G. (2016). Validation and application of a measurement scale on environmental practices for high school teachers in Patos, Paraíba. *Acta Scientiarum*, *38*, 319-325. <https://doi.org/10.4025/actasciobiolsci.v38i3.31561>
26. Szczytko, R., Stevenson, K., Nils Peterson, M., Nietfels, J., & Strnad, R.L. (2018). Development and validation of the environmental literacy instrument for adolescents. *Environmental Education Research*, *20*. <https://doi.org/10.1080/13504622.2018.1487035>
27. Ugulu, I. (2015). Development and validation of an instrument for assessing attitudes of high school students about recycling. *Environmental Education Research*, *21*, 916-942. <https://doi.org/10.1080/13504622.2014.923381>
28. Uitto, A., Juuti, K., Lavonen, J., Byman, R., & Meisalo, V. (2011). Secondary school students' interests, attitudes and values concerning school science related to environmental issues in Finland. *Environmental Education Research*, *17*, 167-186. <https://doi.org/10.1080/13504622.2010.522703>
29. Waltner, E-M., Riess, W., & Mischo, C. (2019). Development and validation of an instrument for measuring student sustainability competencies. *Sustainability*, *11*, 1717. <https://doi.org/10.3390/su11061717>
30. Worsley, A., & Skrzypiec, G. (1998). Environmental attitudes of senior secondary school students in South Australia. *Global Environmental Change*, *8*, 209-225. [https://doi.org/10.1016/S0959-3780\(98\)00016-8](https://doi.org/10.1016/S0959-3780(98)00016-8)
